

# Geography Project

In our Geography lessons next half term, we are learning about...

## SETTLEMENTS

For your next project, I would like you to look at settlements and make something that you have researched or created about our new topic.

A settlement is a place that someone lives and has chosen to 'settle.'

Ideas for your project could be...

- Fact file
- Painting/Drawing
- Diary entry about what it is like to live there
- A model of a building or village
- A collage
- Poster

You can be as creative as you like and please think about settlements in the past and the present as well as in different places.

Please bring your projects back when school reopens.
