

Pasta Jewellery- Step by Step

You will need, Pasta (must have a hole so it can be threaded), and string/wool.

1. Take your string/wool and thread one piece of pasta onto it.

2. Tie a knot to hold the piece of pasta in place. This will stop the other pasta falling off.

3. Thread more pasta onto your sting/wool. Keep going until you have enough pasta on to make your jewellery fit.

4. Tie a large knot with a loop at the end.

5. Put the first piece of pasta through the loop at the end and you can now wear your home made jewellery!

Have Fun 😊
