

Nursery Project

In Nursery our second topic for the summer term is 'People Who Help Us'. We will be learning about the different people who help us in the community and exploring the varying ways in which they support us. It would be great if you could complete our 'People Who Help Us' project at home so we can use your child's ideas to generate discussion when we return to school.

Before starting the project with your child it will be beneficial to ask them some questions about people who help us, such as:

- Our family and friends can help us, who else can help us?
- Who can help us if we are feeling poorly?
- Who helps us to deliver our letters?
- How does a Police Officer help us?
- What equipment does a Firefighter need to use in an emergency? Why?
- How do paramedics get us to the hospital?

Once you have discussed different occupations and the people who help us you could watch the following episode of Biggleton on CBeebies:

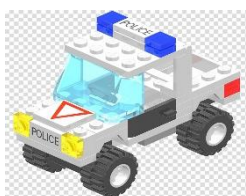

<https://www.bbc.co.uk/iplayer/episode/b0btt05z/biggleton-series-2-8-emergency>

This episode is a great introduction to emergency services and the way in which they support us. The Biggleton TV series looks at different occupations, episodes of the show could be useful discussion prompts for you and your child.

Project Details

For our class project we would like to see an emergency vehicle created by your child with your support. You can choose any media or materials that you desire to create your emergency vehicle, some ideas are: Lego, junk modelling, painting or playdough. If you choose a resource such as Lego take a photo and send to our email address which is:

bps.eyfshomelearning@perryhallmat.co.uk we can then display these on the Interactive Whiteboard when we are back in school to support our family group discussions. As well as the vehicles ask your child to consider what other equipment that may be used e.g. for a Fire Engine they may include ladders and a hose.

We are really looking forward to seeing your creativity!
