

Y3 - Viking Boat Project

Viking Ship Craft for Kids

1. Cut a milk/juice carton in half.
2. Using brown paint, paint the milk/juice carton.
3. Cut a square of paper to create a sail and use bamboo sticks to reinforce the top and bottom.
4. Poke a hole in your sail at the top and bottom. Thread a small tube through both holes.
5. Secure the cardboard tube inside the boat.
6. To make an oars, poke three holes into each side of the carton.
7. Put three bamboo skewers into the holes and use some brown card glued on the end to create the paddles.
8. Draw a dragon head, attach this to the front of the boat.
