

# All about the Number 19

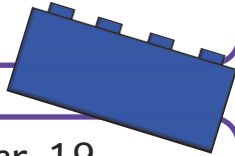

## Home Learning Challenges

# 19

Can you count out 19 pencils and line them up? What happens if you add one more pencil to the line? How many pencils have you got now?

Count out 19 building bricks. What can you build with 19 bricks? How many different types of models can you build? Can you build a dog, a dinosaur or a tower?

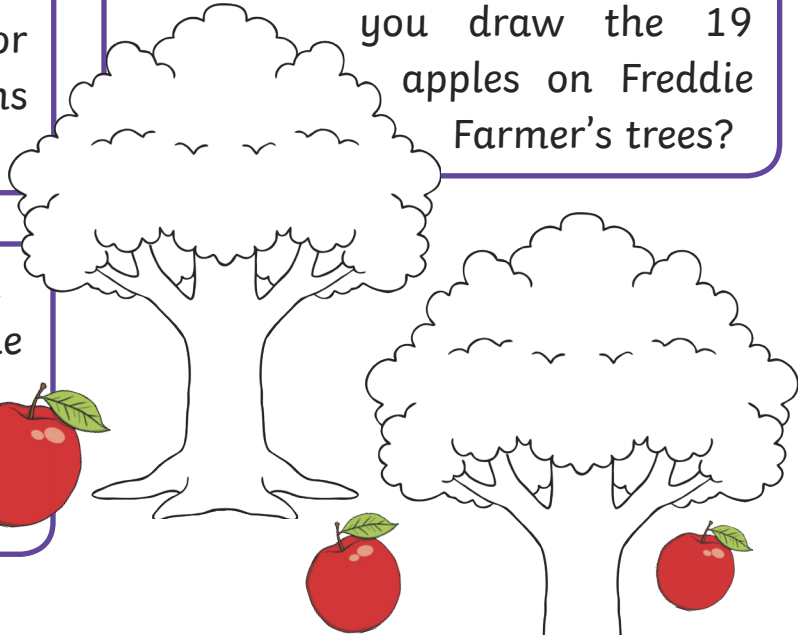

Parnell, the parrot, had 20 grapes. He ate one. How many grapes does he have left? Can you draw a picture to work out the answer?

Create a number 19 poster to display. Make sure you include the number as well as drawing or sticking 19 items onto your poster.

Freddie Farmer is growing apples. He has two trees. There are 19 apples altogether. Can you draw the 19 apples on Freddie Farmer's trees?

Can you see the number 19 on this page? Can you trace over the numbers at the bottom of the page? You could try writing the number 19 on your own too.
